PUBLICATIONS

BOOKS

Learning Elixir, Packt

Elixir: Scalable and Efficient Application Development, Packt

PAPERS

OpenCUDA+MPI, BSU, SRI

SKILLS

PROGRAMMING

Elixir/OTP • Python • Java • Erlang/OTP

Go • C# • C • Bash • JavaScript • Rust

TOOLS/OTHER TECHNOLOGIES

GNU/Linux • Git • \LaTeX • Markdown

Mercurial • GNU Make • Maven

Emacs • Vim • IntelliJ

Amazon Web Services • PostgreSQL

Docker • Networks • Ansible

EDUCATION

BOISE STATE UNIVERSITY

APPLIED MATHEMATICS, B.S.

December 2014

Student Research Initiative (SRI)

Fellowship Recipient (2013)

COURSEWORK

UNDERGRADUATE

Partial Differential Equations

Data Analysis

Graph Theory

Parallel Computing

Numerical Analysis I

NOTABLE MENTIONS

- Linux Kernel Contributor
- Various other FOSS Contributions

Sun Valley Ski Education Foundation

- National Bronze Medalist
Open-Mens Half-Pipe (2009)
- Three time invitee (Project Gold) US
Olympic Snowboard Team Camp

EXPERIENCE

HOMEUCU, LLC | SITE RELIABILITY ENGINEER

March 2017 - Present

- Maintain AWS Infrastructure and Automation
- Develop internal tools for application environment management
- Systems tooling and Integration with AWS
- Build Automation, Tooling, and Administration
- Office Network Administration

ZDATA, INC | SOFTWARE DEVELOPER

January 2016 - January 2017

- Design, develop, and maintain software applications in support of our managed services team

CLEARWATER ANALYTICS | SOFTWARE DEVELOPER

July 2015 - December 2015

- Design, develop, and maintain full-stack web applications, specifically in the Asset Manager space

ALPINE DATA LABS | DATA SOLUTION ARCHITECT

January 2015 - July 2015

- Developer and maintainer of several internal and external toolkits and libraries
- Provide assistance for the sales and technical account managers regarding proof-of-concepts and other technical concerns with Alpine/Chorus

ZDATA INC. | BIG DATA ENGINEER

Jan 2014 - Jan 2015 | Boise, ID

- Work with and provide support for EMC/Pivotal database technologies
- Research and evaluate several big data technologies including: Hadoop, Spark, Storm, and Kafka, as well as other technologies such as PostgreSQL and Zabbix

BOISE STATE UNIVERSITY | RESEARCH ASSISTANT

2013 | Boise, ID

- Research and develop a new framework for heterogeneous CUDA-capable GPU clusters

BOISE STATE UNIVERSITY | STUDENT HPC SYSTEMS ADMINISTRATION ASSISTANT

Summer 2013 | Boise, ID

- Configure advanced GPU/CPU scheduling into Sun Grid Engine (SGE)
- Downsize and clone an Idaho National Laboratories (INL) based mini-Cave

POWER ENGINEERS | INTERN SOFTWARE DEVELOPER

2008 - 2013 | Boise, ID

- Design, develop, and maintain full-stack custom applications for internal POWER operations using ASP.NET/WebForms/MVC in C#, HTML/CSS, and JavaScript
- Developed internal libraries, API bindings, and network administration applications
